EXPERIENCE & INTERNSHIP

Northcorp Software Pvt Ltd— *Senior Flutter developer* link

Nov 2024- Current*

I developed a cross-platform E-commerce mobile application for Android and iOS using **Flutter and Dart**, focused on women's fashion with categories like innerwear, ready-to-wear sarees, and jewelry, along with multiple subcategories for smooth browsing. The app includes secure online payments through **Razorpay**, a **Virtual Almirah (digital wardrobe)** where users can upload outfit images, and an **AI-powered outfit recommendation system** that automatically generates looks according to the occasion. It also features **virtual try-on** and an **AI assistant that chats with users and provides voice-based recommendations**, enhancing the overall user experience across both platforms.

Tech & Editor (Working on): VS Code, Android Studio, Flutter, Kotlin, XML, Flutter WebRTC, WebSocket, Firebase Notification, Flutter Bloc, GitHub Action, Integration test, Unit test.

The Byte IQ, Lucknow— *Flutter developer (Android & IOS)* link

Sept 2022 - Oct 2024

A product-based company has both B2C and B2B products. Working on a gaming app (11 Khiladi) as Dream11& UpNeda govt Project for Android and IOS, to know more about byte IQ, visit the link, and for the application, visit UpNeda**.**

Contributions: I automated integration and unit testing using **GitHub Actions** and implemented **Bloc state management** across the existing codebase. I enhanced the application with polished UI/UX and animations, integrated **Firebase push notifications**, **Socket IO, Google Maps, payment gateway,** SQLite-based global search, third-party APIs, and Google authentication. Additionally, I developed core functional modules, including **contest creation/joining,** player and match data handling, scoring, winnings, and payout processes.

Tech & Editor(Worked on): VS Code, Android Studio, Flutter, Kotlin, XML, Firebase Notification, Google Map Integration, Live Location Tracking, Figma, etc.

GoodTech Mind Solutions, Kolkata Remote. — *Flutter developer Internship*

March 2021 -Aug 2022

Worked on some modules like - Improved UI/UX, Google Maps, Places APIs, Firebase Services(Auth, Firestore, FCM, Cloud Storage), Connected with Backend API, Convert Image file to PDF file, Read Excel sheet data, Fetching current location weather, Next seven-day Weather Forecasting.

EDUCATION

Rajkiya Engineering College, Azamgarh— *B.Tech AKTU*

JULY 2018 - May 2022

CGPA: 7.8, Information Technology (IT) link

Modern I C SRN, Bhadohi(U.P).— *XII UP Board*

MAR 2016-APR 2017

Percentage: 84.6%, Mathematics, Physics, Chemistry link

PROJECTS

Prahari— *An IoT-Based Crop Monitoring Application* May 2022

Flutter Framework for Android app, Firebase Push notification, Weather Forecasting, Government schemes for farmers, Raspberry Pi, sensors, humidity and temperature sensor, Geolocator library, Rest APIs, etc.

NewsXS — *Unbiased real-time news app* Oct 2020

Developed a Native Android App using Kotlin language on Android Studio IDE that fetches news articles, newspapers, books over the web, utilized API from newsapi.org, App Store Optimisation, Dark Mode, Asynchronous Tasks -Multithreading, Work Offline, Web View, Picture in Picture view

ReCart— *Product delivery service for college* Dec 2019

Worked with three colleagues, developed an Android app for Vendors, a Delivery app, Intent-based UPI Payments, OTP Authentication, Firebase Firestore, and Cloud Storage, and published on the Google Play Store

SKILLS

OS (Linux, Windows, macOS)

Android (Native, Kotlin, MVC, MVVM, build gradle, Retrofit, Jetpack Compose, Hilt, Room)

Flutter (dart, bloc, provider,https, integration & unit test, Google Map api, TDD, OpenAPI, WebSocket, WebRTC, etc.)

Version Control (Git, GitHub)

Architecture (MVC, MVVM)

Testing (Integration and unit)

Others: RestApi, SQLite, Jira, Figma, Firebase, Firebase Push Notification, Data Structures, and Algorithm.

ACHIEVEMENTS

Runner, Hacktech-National level hackathon organized by REC Banda, awarded 2nd prize. Made a resource sharing app under the Smart Campus Theme

Runner, Pixel 2.0- Debugging, coding competition in college.

Winner, Ideathon- Hackathon organized by REC Azamgarh

LANGUAGES

Dart, Kotlin, Python, C, Java Basic, HTML, CSS

POSITION OF RESPONSIBILITY

Operation Head, Entrepreneurship Development Cell, REC Azamgarh- 2020-2022

Managed all events and related paperwork to entrepreneurship through the cell. Enhance and induce the ecosystem of entrepreneurship, innovation in college.

COURSES UNDERTAKEN

Core Courses- Data Structures, Design and Analysis of Algorithms, Database Management System, Operating Systems, Theory of Computation, Compiler Design, Engineering, and Discrete Mathematics

Self-Taught Courses- Blockchain Technology (NASSCOM), Android Development Essential Training (LinkedIn), Applied Machine Learning (LinkedIn), Artificial Intelligence(CS50, Harvard), AWS Machine Learning (Coursera).
