## Professional Summary

Dynamic Flutter Developer with 1.5+ years of experience building high-performance, cross-platform mobile applications for Android and iOS. Expertise in Flutter/Dart, state management (GetX, Provider, BLoC), REST API integration, Firebase services, and deploying scalable apps to Play Store and App Store. Proven track record in implementing complex features including deep linking, referral systems, push notifications, payment gateways, and real-time tracking. Strong collaborator with cross-functional teams, delivering user-centric solutions and driving operational excellence.

## Technical Skills

**Languages:** Flutter, Dart, Python, HTML5, CSS3, JavaScript

**Frameworks/Libraries:** GetX, Provider, BLoC, Hive, Firebase, Django, MVC, GoRouter

**Tools/Platforms:** Git, GitHub, Figma, Postman, Android Studio, VS Code, Play Store, App Store, ADB

**Databases:** PostgreSQL, Django ORM, SharedPreferences, Hive

**APIs & Integration:** RESTful APIs, Firebase (FCM, Analytics, Crashlytics), Razorpay, Deep Linking, Push Notifications

**Soft Skills:** Problem-Solving, Team Collaboration, Communication, Leadership, Attention to Detail, Adaptability

## Professional Experience

### Flutter Developer

**Transcloud Solutions · Super Tutor EdTech App** Vadodara, Gujarat

*November 2025 – Present*

- Developing and maintaining Super Tutor, a comprehensive EdTech mobile application for students preparing for competitive exams (JEE, NEET, BITSAT) with 10,000+ active users
- Implemented complete referral system with deep linking, Play Store install referrer tracking, and real-time UI notifications, increasing user acquisition by 25%
- Built comprehensive notification system with Firebase Cloud Messaging (FCM) supporting foreground, background, and terminated app states with custom action routing
- Integrated GoRouter for declarative navigation with deep link support (custom scheme, HTTP/HTTPS) enabling seamless app navigation from external sources
- Optimized app performance reducing crash rate by 40% through proper error handling, Firebase Crashlytics integration, and comprehensive logging

- Developed quiz module with timed tests, instant grading, detailed analytics, and progress tracking improving student engagement by 35%
- Implemented flashcard system with spaced repetition algorithm for effective learning and memory retention
- Built mock exam module with full-screen timer, question bookmarking, and comprehensive result analysis with percentile calculation
- Integrated payment gateway (Razorpay) for subscription management with trial period handling and automatic renewal
- Managed state using BLoC pattern ensuring clean architecture and separation of concerns across 50+ screens
- Collaborated with backend team to design and integrate RESTful APIs with proper error handling and offline support
- Conducted code reviews and mentored junior developers, improving code quality and team productivity by 20%

### Flutter Developer

**Qicpic Innovations Pvt Ltd —** Bangalore, Karnataka

*December 2024 – May 2025*

- Developed and maintained in-house Flutter applications for sales teams, enhancing usability and boosting operational efficiency by 20%
- Collaborated with project managers, backend developers, and UI/UX designers to deliver features aligned with business objectives, reducing delivery timelines by 15%
- Integrated REST APIs and Firebase (Analytics, Crashlytics, FCM) for real-time data tracking and app stability, improving crash-free user sessions by 30%
- Managed code versioning with GitHub and deployed Android apps to Play Store, resolving critical bugs and optimizing performance based on user feedback
- Documented APIs and workflows, streamlining onboarding for new developers and reducing training time by 25%
- Presented weekly feature demos to stakeholders, incorporating feedback to align with business goals

### Flutter Developer

**Infocentroid Solutions Pvt Ltd —** Indore, Madhya Pradesh

*January 2024 – June 2024*

- Built and maintained two e-commerce applications using React Native, improving user engagement by 35% through intuitive UI/UX
- Designed and implemented Django-based APIs for seamless backend integration, reducing API response time by 40%
- Developed an admin console and portfolio website using Flutter Web, enhancing client accessibility and interaction
- Managed backend services with Django and PuTTY, ensuring 99.9% uptime and stability
- Deployed apps to Play Store, addressing bugs and optimizing performance, resulting in a 25% increase in user retention

- Designed user-friendly database schemas with Django ORM, improving data retrieval efficiency by 30%

## Key Projects

### Super Tutor - EdTech Learning Platform

*(Flutter, Android & iOS) · GitHub:* https://github.com/admonash/super-tutor-app

- Comprehensive exam preparation app for JEE, NEET, BITSAT with 10,000+ downloads and 4.2+ star rating
- Features: Chapter-wise study materials, timed quizzes, mock exams, flashcards, progress analytics, subscription management
- Implemented referral system with deep linking and Play Store install tracking achieving 25% increase in organic downloads
- Integrated Firebase FCM for smart notifications with custom action routing (quiz reminders, chapter updates, subscription alerts)
- Tech Stack: Flutter, BLoC, GoRouter, Firebase, Razorpay, Play Install Referrer, App Links

### Qicpic Zap - Sales Management App

*(Flutter, Android) · Play Store*

- Built in-house sales app from scratch to onboard merchants, manage products, and track team activities
- Implemented file uploads, Google Maps integration, camera functionality, and sales analytics with bar graphs
- Integrated Firebase Analytics, Crashlytics, and FCM improving merchant onboarding efficiency by 40%
- Tech Stack: Flutter, GetX, Freezed, Firebase, Google Maps API

### Global Health Opinion & GHORx - Telemedicine Platform

*(Flutter, Android & iOS) · App Store · Play Store*

- Developed telemedicine apps enabling patients to access second opinions and upload medical records
- Integrated biometric authentication, file uploads, voice recording, and payment gateways
- Leveraged GetX and SharedPreferences achieving 98% crash-free sessions
- Tech Stack: Flutter, GetX, REST APIs, Payment Gateway Integration

### Raitha Sahayak & Krishi Connect - AgriTech Platform

*(Flutter, Android & iOS) · Play Store*

- Developed agri-products platform with ML-based crop quality checking, increasing seller trust by 25%
- Integrated camera, geolocation, IoT for moisture tracking, and Razorpay payment gateway
- Built buyer-focused purchasing app with quality-based product selection improving user satisfaction
- Tech Stack: Flutter, GetX, ML Integration, IoT, Razorpay

## Education

**Post Graduate Diploma in Advanced Computing (PG-DAC)**
Centre for Development of Advanced Computing (CDAC) — 2023
Percentage: 67%

**Bachelor of Technology (B.Tech)**
SAGE University, Indore — 2022
CGPA: 7.8

## Certifications

- Post Graduate Diploma in Advanced Computing (PG-DAC), CDAC, 2023
- Flutter & Dart - Complete Development Bootcamp
- Advanced Firebase for Flutter Developers
