Education

Ashokrao Mane Group of Institutions
B.Tech in Computer Science and Engineering 2022 – 2026

- Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Artificial Intelligence, Cloud Computing, Machine Learning

Experience

Java Developer Intern | Wordlane Tech Sep.2025 – Feb.2026
Java, Spring Boot, REST APIs, SQL, Git, GitHub

- Contributed to backend development and REST API integration using Java and Spring Boot.
- Assisted with SQL-based data operations, debugging, and API testing.
- Collaborated in an Agile team environment and used Git/GitHub for version control.

Flutter Application Developer Intern | Alphinity Softtech Mar.2025 – Aug.2025
Flutter, Dart, Rest APIs, Firebase

- Developed cross-platform Flutter applications using Dart with reusable and responsive UI components
- Integrated REST APIs and Firebase for authentication and real-time data handling.
- Assisted with debugging, performance optimization, and feature enhancements in a collaborative team environment.

Projects

CivicEase | Flutter, Dart, Firebase (Auth, Firestore, Storage), REST APIs, Google Maps API Link

- Developed a cross-platform Flutter application to report, track, and manage civic issues with real-time updates.
- Integrated Firebase Authentication for secure login, role-based access, and live data synchronization.
- Implemented image upload (Firebase Storage) and location tagging (Google Maps API) for accurate issue reporting.
- Designed a responsive Material UI and followed clean architecture with reusable widgets for scalability.

Vulps Fashion Store | React, Java (Spring Boot – API Integration), SQL (Exposure), HTML, CSS, JavaScript Link

- Developed a React-based e-commerce web application focusing on UI and responsiveness.
- Implemented product listings, categories, and admin panel UI using React.
- Integrated frontend with Spring Boot backend APIs, including payment workflows.
- Collaborated with backend teammates and gained exposure to SQL-based data handling.

Voice-Based Coding Assistant | Flutter, Dart, REST APIs,Speech to Text, Text to Speech Firebase / Backend Services Link

- Built a Flutter mobile application implementing a voice-driven coding assistant using Speech-to-Text (STT) and Text-to-Speech (TTS) for real-time code explanations in native languages.
- Developed responsive, performance-optimized UI with Flutter widgets, following accessibility and mobile UI/UX best practices.
- Applied modular and scalable architecture, integrating REST APIs to ensure efficient voice processing and reliable content delivery.

Amazon Clone | Flutter, Dart, Firebase Authentication, Material Design Link

- Developed an e-commerce mobile application using Flutter and Dart with a focus on clean UI and user experience.
- Implemented Firebase Authentication for secure user sign-up and login.
- Built core features including product listing, categories, and cart management.
- Designed responsive layouts using ListView, GridView, and PageView, following Material Design principles.

Technical Skills

Languages and Coursework **:** Java, C++, Dart, DSA, OOPS, CN, DBMS, OS
Web Technology **:** Flutter, Android(Java), React.js, HTML, CSS, JavaScript
State Management **:** GetX, Provider
Backend & APIs **:** Spring Boot, Node.js, RESTful APIs
Databases **:** MySQL, MongoDB
Tools / Platforms **:** Git, GitHub, Docker, Firebase

Coding Profiles

LeetCode: Solved 100+ problems focusing on algorithms and data structures [Link]
CodeChef: 2 Stars Rating [Link]
Codeforces: Newbie [Link]

Certification

Placement Preparation Programme | IIT Mumbai Symposium
PHP & MySQL Training, Spoken Tutorial (IIT Bombay)
Android Developer (Virtual Intern) – Google for Developers, India Edu Program
Networking Basics – Cisco Networking Academy

Core Strengths

Proficient in Java, Spring Boot, and full-stack development with hands-on project experience.
Strong problem-solving skills with 100+ DSA problems solved on competitive platforms.
Adaptable to new technologies and frameworks, with a focus on clean and scalable code.
Effective team collaborator with strong communication and development skills.
